### **Art Supplies and Materials**

- The district allowance of art supplies is for the most part used up by the end of the first semester. The LCC Art students deserve better. With your help the Foundation can support the Art department with the critical supplies and materials needed to enhance the art education of every LCC art student.

### **Science Department Lab Support**

- The LCCHS Foundation has committed to financially supporting the Science Department in funding the supply of essential lab equipment and materials to maintain the high performance of science students. In funding this program we hope to have a direct and positive effect on the learning environment both for the individual science students as well as the science department as a whole.

### **Essential Academic Materials**

- From supplying academic materials such as calculators and books, to classroom essentials such as ink and paper, these requests are in high demand by our staff and faculty. Funding such requests offers a complete learning experience for students and provides the essentials needed by teachers to run a functioning classroom.

As parents we have the opportunity to engage, unite, and guarantee the success of these programs to allow the very best education for the students of La Costa Canyon High School!

We invite you to invest in your child's future and the community by making a tax deductible donation today to ***Moving Mavericks Forward***.

Sincerely,

Clarke Caines, President
